Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

*Re: **Starry, Inc. Notice of Ex-Parte Communication**; Use of Spectrum Bands Above 24 GHz For Mobile Radio Services, et al., GN Docket No. 14-177, IB Docket Nos. 15-256 and 97-95; RM-11664; and WT Docket No. 10-112*

Dear Ms. Dortch:

On May 5, 2017, Starry, Inc., represented by Chet Kanojia, Chief Executive Officer, participated in two meetings at the Federal Communications Commission ("Commission") with Wireless Telecommunications Bureau Staff and with Erin McGrath, Legal Advisor, Wireless, Public Safety and International for Commissioner Michael O'Rielly. A full list of meeting attendees is included in Attachment 1.

During these meetings, Mr. Kanojia briefed the participants on Starry's proprietary 5G fixed wireless technology and the company's deployment progress in Boston and other cities. The attached presentations were shared during the meetings (Attachment 2 & 3).

Mr. Kanojia also reiterated Starry's support for the *Spectrum Frontiers Report & Order* and the Commission's balanced approach to spectrum licensing to include sharing, exclusively-licensed and unlicensed models. Starry believes that a diverse set of licensing models means that a wide range of companies can innovate in these bands and invest in the development of new 5G technologies. Starry also voiced its support for the Commission to move forward expeditiously with promulgating rules for the millimeter wave bands.

Pursuant to Section 1.1206(b)(2) of the Commission's rules, an electronic copy of this letter is being filed for inclusion in the above-referenced dockets. We have also provided a copy of this letter electronically to all Commission personnel who were in attendance. Please contact the undersigned with any questions.

Respectfully submitted,
Virginia Lam Abrams
Starry, Inc.
